THE PRESIDENT IN TEXAS. LAWLESSNESS AGAIN RAMPANT.

Proops to Keep Order in the Coke Region to

Be Asked for Again.

SCOTTDALE, Pa., April 18.-The coke region is again the scene of lawlessness and excitement is at fever heat. Last night a band of about one hudnred strikers assaulted the Leisenring No. 2 plant of the Frick Coke Company. Shots were exchanged and for a time the fight waged furiously. The guards held their ground and finally compelled the mob to beat a retreat, but not until one of the deputies was dangerously injured and it is thought can-

Sheriff McCormick, up to this time, has been trying to deal patiently with the lawless element and to avoid, if possible, being charged with using undue authority. But today he has about concluded to surrender and call on the governor for state troops. His deputies' lives have been placed in partly and the surrender and call on the governor for state troops. laced in peril a number of times during the past three or four days. A call for troops will likely be made this afternoon. At the offices of the Frick and McClure companies word is given out that a few more men reported for work this morning at a number of e plants now running and that the shipme coke will be increased a few cars.

LABORERS' MEETINGS NOT EFFECTIVE. The various meetings held by the labor leaders seem to have no offect; at least not getting any of the men at work to quit. Master Workmen Wise and Hay returned from the Whitney and Lippincott works near Latrobe last night, where they held meetings yesterday. They are greatly depressed over their failure to accomplish anything. The men yet remaining out demanded that those at work be brought out and the Italians driven away within two days or all the men would claim their jobs. The situation with the leaders is becoming painfully serious and looks more like defeat every day.

ON GUARD AT MOREWOOD, Fifty-two deputy sheriffs, commanded by Sheriff Clawson, all armed with Winchester rifles, are stationed at Morewood works. The force of workmen at Morewood is much smaller today. The strikers were out all night beating drums. The withdrawal of the troops from the coke region has been followed by very threat-

ening rumors.
At 2 o'clock this morning unknown partipresumably strikers, by the use of dynamits blew the bottom out of the large water tank a the Kyle works. The burning coke could no watered in the ovens and was a total loss.

PANDEMONIUM IN THE PIT.

The Wheat Market Becomes Excited Prices Leap Upward. CHICAGO, April 18 .- The wild flurry in wheat which has been on foot the past two days is still in full swing today. May wheat closed vesterday afternoon at 110%. On the curb, later, the feeling was easier and trading opened % lower at 110% this morning. Early public cables quoted wheat at Liverpool strong and % higher, with a good demand, and private advices from there said the market was advancing and excited. The market we

Pandemonium reigned in the pit. Excited
and perspiring traders shouted themselves hoarse in their frantic efforts to be heard. May steadily rose to 113, the outside figure on the first bulge, passed it and soon went to 1143, and it was reported that one sale was made as high as 115. That was the top; another deluge of realizing sales followed and inside of ten minutes the price was down to 1123.

MURDERER BLANEY RECAPTURED.

Officers Watched for Him All Night Were Finally Rewarded. BALTIMORE, MD., April 18.-Wm. Blaney, the nurderer who escaped from the city jail last vening, was captured at the house of his aunt, Mrs. Frank White, on Sargeant street in South-west Baltimore at 10:30 this morning. The arrest was made by Patrolmen Hussey and Smith of the southwestern district and Deputy Wardens Burke and Meyer of the jail, who had been watching the house. The in-mates of the house said Blaney came there

drunk this morning.

The house was watched by the officers all night and was searched three times, the last time at 10:30 o'clock today, when Blaney was found in a drunken stupor. He was taken to the patrol box at Wooster street and Washing-ton avenue, from which the patrol wagon was summoned. He was then taken first to the

Frey's office.
Blaney was too drunk to sit unaided and was supported by his captors on the floor of the patrol wagon. He had to be carried almost bodily into the marshal's office. Blaney was too drunk to make say resistance when captured, but had to be handcuffed in the marshal's office. He cursed and struggled and had to be held by two officers before being pinioned. When in the wagon \$11 were taken from him and he demanded his money from the officers with frequent outla

He was dressed in a dark suit and a light fiannel shirt, but wore no vest. He was taken back to jail immediately after his interview with Marshal Frey. He re-entered the wagon by the North street entrance of the city hall in rder to avoid the immense crowd that had collected on the Lexington street side. Sherifi acCaffray had decided to read the death warrant to Blaney at 12 o'clock today, but post-poned that incident of the execution until Mon-day when he saw the man's condition. Marshal Frey and his officers did good work, say the mayor and sheriff.

GREAT MORTALITY AMONG CHILDREN. Affecting Sight Witnessed in a Small

READING, Pa., April 18 .- An unusual funeral was wilnessed at Bern Church near Leesport, this county, this morning when the remains of our children of Adam Stout, a well-known citizen of Marsh, Chester county, were interred in one grave in the cemetery adjoining the church. The little ones ranged in age from two to seven years and died within forty-eight hours of the measles and grip. Owing to the contagious character of the disease the railroads preferred not to furnish transportation to the funeral cortege, and the family and mourners drove a distance of twenty-eight miles. 'L'Eco D'Italia" of New York Again Lets NEW YORK, April 18 .- L' Eco D'Italia this norning prints the following: "No one after the slaughter at New Orleans doubted that the murderers would be allowed to walk freely about the streets. No one thought, however, that from the cabinet at Washington would have been sent out such stupid and dishonest

have been sent out such stupid and dishonest pleas, attempting to save the murderers from the hands of the hangman.

"An honest and civilized nation would not have allowed a bloodthirsty mob to attack the prison and murder the prisoners; and should such a thing have happened through the carelessness of the authorities a civilized nation would have prosecuted and punished the guilty parties. Not only justice but the property and life of citizens had been insulted. Before giving satisfaction to Italy the United States ought to give it to themselves. The murderer triumphs and finds an advocate in Secretary Blaine, and the civilization of America, so often boasted, has proven to be a bluff—a humbug. A government which apbluff—a humbug. A government which approves such a course betrays its own country and calls upon civilized nations to send their guns to teach it how international law and ights should be respected."

a It is believed that arsenic was put in the coffee at the wedding dinner for the purpose of killing some one. By whom such an act could have been committed has not even been conjectured. The condition of Mr. J. H. Sutcliffe's daughter and Miss Susie Herr is alarming. Rev. T. T. Martin, who performed the ceremony, is in a very critical condition. All of the eight guests, who are at Mr. Herr's house, are very ill. Mr. and Mrs. Snocks started on their bridal tour soon after the wedding, but were taken suddenly ill in Cincinnati Thursday and were compelled to return to Louisville. The condition of both is now said to be critical.

THE SHOREHAM ACCIDENT.

Sepairs to be Made at Once-An Official In spection Made Today. and strong timbers have bridged the huge and

unintentional apertures. The story of the accident which took place made to the ceiling immediately beneath the sixth story and a jack was being operated. The floor upon which the jack stood was weaker than the ceiling, so when the power was applied it was the floor and not the ceiling that made a move.

A section of the fifth story hallway, about

ten feet long and six feet wide, was forced out of place and it dropped to the floor below. Then the two floors joined forces and dropped another story, and in company with the third dropped again. When the dropping business to an end there were five disabled hall ways, while near the interior entrance to the cafe were several tons of plaster, light timbers and tiles. Luckily no one was hurt, but there ere a number of narrow escapes. WORK OF REPAIR AT ONCE COMMENCED. Workmen were at once secured and lumber

urchased. The involuntary elevator shaft was closed on each floor and as soon as that had been done the guests whose rooms were on the verge of the jack-made yawning chasm were transferred to apartments less perilously situated.

Manager Keenan said to a Star reporter this

afternoon that it had been intended haul those stairways anyhow and that drawings had been prepared some time ago. He did not know just how long it would take to reconstruct the stairs and hallways; the remight have been completed in about hree or four weeks, but the work of recontruction would necessarily take much longer THE BUILDING INSPECTOR'S REPORT. This morning the inspector of buildings sent

into and report the cause of the falling of the floors. Later in the day Mr. Evans made his report, which was substantiall that the workmen who were putting in a girder on the fifth floor to stiffen the landing let the girder fall on the floor. The beams supporting the floor were rotten, caused by the plasterer mixing mortar on the floor when the building was constructed and it gave way, its weight carrying with it the other floors. Building Inspector Entwise decided to allow Mr. Morton to repair the same without a permit. In a letter received this afternoon, Mr Robert I. Fleming, the architect in charge of CTTERANCES QUITE UNTRAMMELED the building, says: "In order that there may be no cause for any feeling of insecurity or sense of uncertainty of any apprehended danger regarding these floors, Hon. L. P. Morton, the owner of the property, has given me instructions to have all of the hall stair case floors (six in number) removed and others reconstructed in a most thorough and substantial manner."
